

X-RATED PERFORMER.

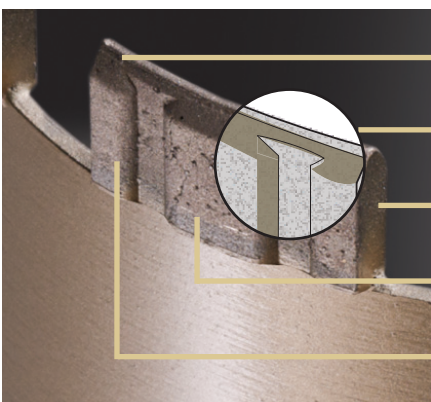

New **NIMBUS X³** takes professional diamond drilling to another dimension in performance.

NIMBUS X³ uses a unique configuration of bond and diamond technology in a revolutionary new dual fluted/tapered segment to give 3 dimensional performance

- **Xtra** easy drill-start
- **Xtra** 20% speed
- **Xtra** drill life.

Available in a range of sizes from 48mm dia.

- **Nimbus advanced diamond bond technology**
Dramatically improves diamond retention characteristics increasing product life and speed.
- **Revolutionary new dual fluted/tapered segments**
Combine the best quality diamond in a new design for exceptional drilling performance.
- **Very best quality diamond particles**
Only available to us through close partnerships with the world's leading diamond suppliers.
- **Optimised diamond concentration and grit size**
Ensures the very best speed and life performance.
- **Optimised diamond distribution**
Uses the latest granulation technology to maximise the cutting efficiency.
